FUNDAMENTALS OF RAO'S SYSTEM OF NADI ASTROLOGY

Dear Readers.

By His Grace many books have been made so far by extracting the essence of Nadi System of Astrology.

But in this connection, many readers have expressed their opinion that a book is essential considering the Fundamentals and basic principles of Nadi System of Astrology, that in order to make it easy for the study of other books also. Hence considering such situations, I am bringing out this small edition of book for the benefit of readers.

In this book it explains that how there is always supernatural forces behind superstitious aspects. Also, prominence is given while explaining the CAUSITIVITIES OF PLANETS, CAREER ASPECTS AND MARRIAGE ASPECTS (SAPTAMA BHAVA), and they are made with many examples, and charts. Errors, if any had crept in during printing may kindly be condoned. Our thanks to the Printers M/s. SATHYASRI PRINTERS PVT. LTD., Bangalore.

W	Aquarius			Cancer
S	Capricorn			Leo
	Sagittarius	Scorpio	Libra	Virgo
	E	N	W	S

House of Profession : Saturn is the Lord of Profession. The Planetary Combination of 2nd, 5th, 9th, 7th Signs is Primary Concern to Saturn.

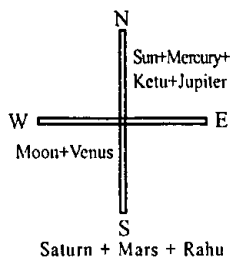

House of Husband : Mars is the Lord of this House. The prediction, is told from the Planetary Combination of 2nd, 5th, 7th, 9th to him (from female chart)'

House of Wife : Venus is the Lord of this House. The Combination of planets with Venus and Planets posited in the 2nd, 5th, 7th, 9th will indicate the Husband, Nature and Profession.

The planetary transit will indicate the auspicious and inauspicious results from time to time.

Example Chart-1 : (Female)

		Saturn	Moon Venus
	Aridra-2		Sun Mercury Ketu
Mars Rahu			
Asc	Jupiter		

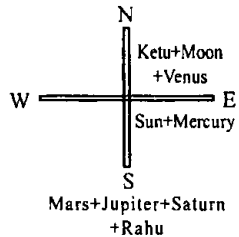

House of Profession : The Saturn is being aspected by Jupiter for this native. So, she has the respectable Profession. Moon + Venus are in 2nd in the House of Intelligence. Since there is an exchange of Mercury and Moon, and Mercury and Venus posited in 2nd to Saturn, she is known to be an intelligent Arts Teacher. Actually she is college Professor. **House of Husband** : Mars is the Husband. Mars is exalted and is with Rahu, Husband is of an Egoistic and short tempered man. But, since Jupiter is in 11th to Mars; he is known to be a teacher connected to the machineries. Actually he is an Engineer.

At the beginning of 2005 -06, since Ketu is in Southern Sign in Transit, and transits on natal Saturn, she gets the blemish of Ketu. With this reason, she gets harassment in the Profession. The reason being, the Ketu transits on the Planets Saturn + Mars + Rahu. This also brings estrangement between husband and wife.

Example Chart-2: (Husband)

	N	E	S	W	
	Moon Venus	Sun Mercury	Mars Jupiter		
W				Ketu	N
S	Rahu			Asc	E
				Saturn	
	E	N	W	S	

Mars+Jupiter+Saturn+Rahu are in Southern Direction in this Chart. That means, the Saturn, the Significator of Profession has the combination of above Planets, his profession is connected to the machineries. Jupiter is the male life and Venus is the female life. Exchange between these two planets it is understood that he is an Officer in the Machinery Organization with people. Since he has also the Ketu's transit over his natal Saturn, he will have enemies, unjust imputation, harassment in the Profession.

Chart-3: This is the Wife's Chart of Previous Native Chart-2

	N	E	S	W	
			Jupiter	Rahu Asc	
W	Saturn			Mars Venus	N
S				Sun Mercury	E
	Ketu		Moon		
	E	N	W	S	

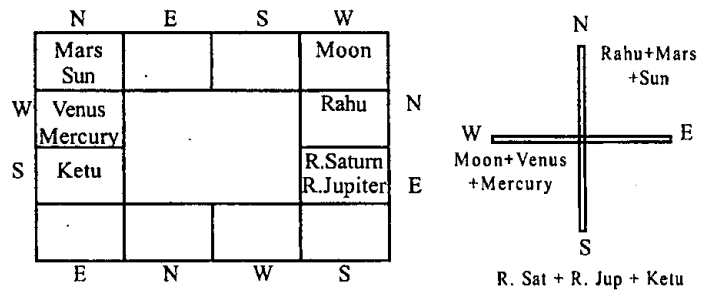

Mars, the Significator of Husband is posited in Watery Sign. Jupiter is posited in 11th to Mars. With this, it is understood, that the husband is an Officer. Since, Venus and Moon have the exchange between them, Venus-magnificence/display, Moon-

movement/travel, the husband will have the profession connected to this.

During 2005-06,even though .Rahu in transit is. in Meena, a North Direction Sign, Cancer is also a North Direction Sign, Rahu's component will also apply to Cancer Sign. That means, Mars + Venus + Moon's Component of Transit Rahu will form. Both Mars and Rahu are inimical, to each other. With this reason, she has the intense anxiety and panic about her husband.

Chart-4: (Female)

Jupiter is posited in 7th to Mars+Sun. With this the father of the native will have position equal to a Minister. Mars + Sun + Ruhu + Jupiter's aspect indicate eminence Political Mentor. Venus is the Native Venus is conjoined with Mercury. Moon is in 5th to Mercury. Retro Jupiter aspect the rear sign. With this Venus + Mercury and Moon get Jupiter's aspect. Since Moon is in 11th in Leo, Venus + Mercury + Moon will get Jupiter's aspect. With this reason, she marries with an inter cast Person.

OM

WHAT IS ASTROLOGY

Ancient epics and scriptures, establish that God Created the universe and all the creatures. The Vedas and commentaries there on proclaim that

**"TAT STUSHTWAA TADEVAAN PRAVISHAT AHAM
BHAHUSYA MI."**

Advaita says, "AHAM BRAHMASMI". God is Omnipotent, and Omnivariant. By his TEJAS- the Glow of the Almighty the entire process of the universe flows. This is carried on through the nature and the creatures appearing in various forms of bodies- both physical and meta-physical. The/Hindu concept is that of SHIVA AND SHAKTHI or ARDHANARISWARA TATWA - the concept of Androgynous.

2. All the creatures of the world contain the Spirit of God in the form of Glow (the Tejas) and every individual creature is designed to function independently and act according to the Tejas in him. The science of Astrology follows the very same principles of VISHWA TATWA. The entire nature is broadly classified as PRAKRUTHI AND PURUSHA- as ordained by the Almighty- and every act of the Universe and the creatures follows the two tatwas.

3. How do PLANETS EFFECT THE ACTIONS OF HUMAN BEINGS AND ALL THE CREATURES?

The whole world may be likened to a vehicle. Petrol is required to run the Vehicle. But if the Carburetor becomes rich with petrol, the vehicle does not start at all. If there is no air in universe, aeroplane cannot move.

Notwithstanding that a vehicle may be in good condition, journey cannot be performed without a Driver. That is to say, that when everything is in order, the vehicle moves otherwise not.

The nine planets, called Navagrahas are the composition of PANCH TATVAS - The 5 elements making up the Universe namely.. Earth, water, fire Wind and Ether.

Learned Master Sri MADHVACHARYA, founder of Madhwa Philosophy says :-

"HARIHI PARATATWAHA
JEEVA GANO
TATWATAHA BEDHAHA"

When a native is born, these planets are in various signs (in directional aspects) in the form of rays. Those radiations define and determine the nature and future of the native.

CAN IT BE PRACTICALLY PROVED THAT PLANETS DO EXERT INFLUENCE ON HUMAN BEINGS AND OTHER CREATURES.

To illustrate, during Ashadha and Shravana Masas, (i.e., July and August months) Sun rays do not have uniform distribution over the earth, leading to cloudiness. During those period creatures also cannot work actively. Because of cloudiness, a sort of laziness is found in the atmosphere and in the minds of all creatures. All creatures have mind, intellect and ego. The planets radiate the sun rays falling on them, onto the native, according to their positions in natal and transitory charts, and these radiations effect mind, intellect, and the ego of human beings and other creatures in the same way as clouds control the distribution of Sun rays over the earth.

When there is smoke or fog, due to poor visibility, there could be vehicular accidents. Even an aeroplane flying in air may meet with an accident. The radiations from the planets have effects similar to that of smoke or fog causing disasters in human lives.

Similarly over heat is also unberable and it may cause sunstrokes and many may collapse and many unwanted things may also occur. If the wind takes the form of gale or torando, many disasters happen. It may tilt even a large ship.

Science has accepted the 12-Zodiacal signs astronomically. Astronomy and astrology are inter-related.

For example, when a baby is born at a time when Sun rays are falling on Mars, the combined radiation being cast on earth, characterises the native born at that time and at that part of the earth with egoism, pride etc.

In the same manner, when Mars rays fall on Jupiter at the native's birth time, the native will be of emotional type, over confident and adamant. In case of Jupiter aspecting Mercury in the natal chart, the native will be educated and fluent in speech. Thus astronomical positions of the planets affects human beings on earth. These principles are adopted in astrology. Astronomical data is collected, adopted and interpreted for practical purposes of predictions.

The author, has made practical applications on such principles and brought out books, taking into consideration the latitudes and longitudes and the planetary positions in the native's birth chart.

IS ASTROLOGY USEFUL TO HUMAN BEINGS?

Yes. It is useful for human beings in physiological, mental, and all worldly affairs.

HOW IS IT USEFUL?

Mind, intellect and ego always prevail in all living beings. The conjunction of planets, at the time of birth ascribes specific characters to the native.

When a person goes for consultation, a learned astrologer,

can precisely deduce the reason which has made the native to go in for consultation, the *nature* of the problem and the solution for it, considering planetary positions at the time of consultation and the conjunction of the planets. Different natives come under different emotional conditions and are of different temperaments. Even these aspects can be gauged from the planetary positions in the horoscope and transitory chart, that may be prepared by the astrologer.

IS IT POSSIBLE TO OVERCOME THE EFFECTS OF PLANETS ON NATIVES ?

A good astrologer, after studying all the above aspects, can very well guide the native. Children can be told about the noble deeds of great saints, sages, and eminent persons and may be guided to follow the path laid down by such great men. Just as a man can be advised to use a rain coat or an umbrella during rains, or to use sweater during cold season, a good astrologer can advise the native to adopt certain preventive or protective measures, to soften the harmful planetary influences, so as to avoid calamities in future life. Thus a native's life can be made a perfumed Golden flower. Astrologer can suggest remedial measures like **Homa**, Japa, Intonings and such other divine aspected performances to solve the problems.

Necessity to follow Astrologer's Advice

Misery follows greediness. Under such situations, every man needs guidance. Astrologer is one of the guides to help such men. When an Astrologer guides a native, and the native follows it, shunning his stubbornness and complexes, the native will have a smooth life.

Ex. A person was travelling by an over loaded bus, after some distance, the Driver of a bus coming from the opposite direction stopped the bus and informed of the RTO check being

carried on in the next post. The conductor managed to reduce the load of the bus and thus passed the RTO Check. The problem that were to be faced due to overload was avoided and further travel became smooth. Thus, advice is essential in human life and an astrologer, through his suggestions will be able to mitigate the problems. avoid further complications. Thus the advice of an astrologer is very useful. Family itself is a bus and incumbents of the house are its passengers. Guidance and advice is essential to everybody. These are some experiences common to all human beings. There are many saints, sages, great learned masters, teachers and guides in this world to guide the people in various fields.

Astrologers can also guide natives regarding health problems like blood pressure, gastric problems etc. and suggest preventive measures based on Scientific calculations of planetary positions. Suitable advice can also be given to persons who are stubborn and are excessive in their behaviour about the effects of their actions on mind and they may suitably be directed.

QUESTION / REGARDING CHILDREN

Some children are stubborn, lazy and lethargic, besides highly mischievous. Some guidance for such kind of children can also be given.

Some children are adamant and stubborn because of the causative effects of planets. If they do not get proper advice at the proper time, such children would become unfruitful citizens of the nation. Planetary combinations like that of MARS & DRAGON HEAD, MARS & JUPITER, MARS AND SUN etc., in the natal chart indicate such nature. Such children can be guided by elders by telling them the stories of great men like PARAMAHAMSA, VIVEKANNANDA, SHARADAMANI etc. Besides mythological stories of great Rishis, Sadhus, great people who sacrificed their life in the cause of humanity can be taught in

simple and understandable manner. Although it may not be Possible to make such children very great people like the above mentioned personalities, still timely guidance would help such children to path their way for a glorious and noble life.

LAZINESS

This type of children generally have inclination to become parasites. They try to live at others cost. In future they would always be thinking of others property and to what extent they can exploit it for their own benefit. It is because such lazy people do not have inclination to do any work, because of their laziness and lethargy.

PLANETARY COMBINATION:- Combination of saturn and Dragon Head in the natal chart is the cause of such inclinations. Therefore such children should be given suitable work, depending on their physique. The result will be that they will be able to develop and prosper well in such fields. They must be advised that whatever comforts and facilities that prevail when they are children will not last long and they have to stand on their own feet when they grow up.

We are all aware of the story of Valmiki, the great poet who composed Ramayana, was a butcher in his earlier life. Because of the Guidance and advice he received he became the eternal poet of the world. In the same manner, many persons in this world have become great, as they received suitable guidance and advice at the appropriate time.

MICHIEVOUS TENDENCY

Some children are very mischievous and they are a cause of tremendous nuisance to their elders and others. Instead of blaming and punishing them, it is essential to guide them properly in a pious and patient manner, we have seen that some children, who in their childhood were mischievous, became greatest men

in the world, in the subsequent sojourn of their life. So, if suitable opportunity, guidance and advice, is given, such children may become very useful citizens.

PLANETARY COMBINATIONS:-*Combination of Mars.* Mercury and Sun, while Jupiter is aspecting these planets or when Jupiter is

aspecting Mars and Mercury, results in such mischievous tendency, The causative planet is Mars. It also indicates special intelligence that should be properly directed. Suppose there is abundant water flowing out of a bore well or any other source of water and that the water is actually ring out. If that water flow is not properly controlled or directed or utilised, the overflowing water may become a cause of many troubles, to others. If the water flow is regulated, it becomes extremely useful. In the same way mischievous children, having extraordinary energy and intelligence, control, guidance and proper channelisation of the resources they posses.

An astrologer studying the horoscope of such children would be able to pinpoint this to the elders of the children, so that the elders come to know the real cause of the trouble being caused by their children and guide them in proper path. Thus an astrologer can be of yeoman service to the brethern of this world.

Some students have the tendency to rebuff when teacher asks questions. Based only on that fact it should not be concluded that the student is a bad one. Instead the student should be properly advised, as such students are usually found to be very intelligent. Some couple keep on quarrelling. They may even go to the extent of divorce. Some native approach astrologers to find out whether it would be better to divorce, and remarry. The astrologer, after studying the horoscopes will be able to find (out of the two persons) (i.e. husband or wife) who is more stubborn and who is the quarrel-picker. Thus, the astrologer may be able

to plug the more adamant and atrocious one, by suitable advice, which may ultimately help both, for running a smooth family in future. Sometimes, an astrologer may have to give such suggestion which may be a bit of lie. But it does not matter as long as the husband and wife stop quarrelling and there is reunion between them. This is the duty of an astrologer. The astrologer may suggest either to the wife or to the husband (depending on their planetary aspects) to chant some mantras daily or to do some parayana, to lead them towards divinity. Astrologer may also advise that the husband and the wife must chant the prayers together, to get fruitful results, so as to impose some pressure, for the cause of a good result. Astrologers do come across various types of natives with different nature and of different temperaments.

RESULTS OF ASTROLOGICAL ADVICE

Many natives who are deceived in the course of life for various reasons, approach the astrologer with great desperation and annoyance. First, the astrologer tries to find out the circumstances under which the native is approaching him definite solutions for the problems, so that the native may get rid of his desperation. Some women literally shed tears while explaining their situations. In such cases, the astrologer will have to offer such suggestions and solutions, that do not cause any threat or damage to their minds. This is very important for an astrologer.

HOW TO SUGGEST SOLUTIONS?

People, either knowingly or unknowingly commit lot of mistakes in life-what are called the comedy of errors. Under such situations, mind remains nonplussed-finding no way to move. Because, the faculties of mind are highly perturbed, the nervous radiations cannot get elevated, with the result proper thoughts or solutions do not appear before the mind. The elevation of the mind and its faculties takes place only when the human mind is Same.

Thoughts cannot go higher up, when the mind suffers frustration, due to non-ventilation. In such cases, what is needed is ventilation of mind to bring balanced thoughts. It is a well known fact that mind can never be kept thoughtless in a wakeful state. In wakeful state mind is restless, with thoughts coming like the waves in the ocean. When mind experiences agony, man becomes stunned and practically experiences a sort of helplessness. An astrologer studying the horoscope or the prashna chart can understand the position of mind, and what is lacking and what is needed by native. This is how astrology is a great science which can guide a native in distress.

In Sanskrit it is said that in ether, there are elements called AAP It is these elements which enable an astrologer to tender advice to the native. With the advice, the flow of thoughts begin to raise/i.e. there is an elevation of thoughts to higher planes and mind begins to balance and reach a same order. In such a state of mind, solutions to the problems can be found easily. That is how natives can be guided in their times of distress.

That is why the astrologers suggest **Homa** (offerings to the sacred fire) and others intonings, so that native can enjoy a sane and balanced mind., reaching the etherial planes.

WHAT ARE HOMAS (OFFERINGS TO THE SACRED FIRE)

Let us discuss it in a simple form. When a person enters a place, where red-chillies is being roasted, there will be smoke and irritating suffocating atmosphere. The visitor cannot tolerate it, and suffers choking-up of the respiratory system. But when a person visits a place, where HOMA (Offerings to Sacred Fire) is being performed, although the smoke may be a bit choking, still the person does not altogether dissent it, because, in the mind he is aware of the difference between the smoke of the chilli powder roasting and the smoke of offering to the Sacred Fire. Also, the

Scared Fire may destroy unwanted insects in the house. Our Rishis of the past have deduced that the smoke from the Sacred Fire is good for health, which removes many health problems. Scented sticks, sandalwood sticks while burning emanate a pleasant smell. Police use irritating gas to disperse for preventing disturbance. The smoke emanating from the Sacred Fire has elemental factors and values that reach the etherial ups and is considered a blessing factor for the benefit of the universe.

SCIENTIFIC EXPERIENCES

In the authors native place there was a doctor. He used to cure dental and tooth ache problems, using a dry fruit called **RAM GULE KAYI**. The fruit was mixed with pure cow milk and cow-milk-made ghee and placed on the fire. The Vapour was passed through a tube into one of the Teeth of the person suffering from dental-ache. The patient was to spit the saliva into a plate, during the course of which the Germs in the dental system would fall out, and patient used to get relief from the toothache.

In the same manner, while performing the Sacred Fire ritual, with specific herbs, it eliminates smoke which is not only divine, but also has great beneficial effects both on mental and divine faculties. Besides, as **NAVAGRAHAS** are also worshipped during Homa, they also cause beneficial effects. Sacred fire embodies **PANCHA BHUTAS.**, and the fumes thereof have **CHEMICAL EFFECT.** (**BOTH IN ABSTRACT AND IN NON-ABSTRACT FORMS**).

The kind of performance of holy offerings to the Sacred fire and thereby marching towards divinity helps people not only to enjoy divine blessings, but also to get concentration of mind which helps one to cultivate good habits.

EVIL SPIRITS

When there is the planetary combination of Moon, Dragon Head and Venus, effects of evil spirits can prevail. This causes

to the native a sort of mental aberration, hallucination, The native will not be knowing what he is doing. His mind becomes standstill. All the above effects put together is called insanity.

The other planetary combinations which cause similar effects are that of Mercury, Mars, and Dragon Head and that of Mars, Jupiter and Dragon Head. This kind of effect operates on the mental faculties of the affected natives more vigourously under certain specific conditions and situations. So, persons subjected to such sort of problems should not be left alone in darkness and in water bound areas. Natives suffering from such hallucinations should not visit a spot of accident, because the life cells have reversible reactions, imposing great pressure on the minds.

DELINEATION: Dragon Head is head, Jupiter indicates life, and mars is power/Shakthi.

In between Jupiter (the life) and Dragon Head (the Demon mind) posited in an irksome position is the Mars. (Power/Energy/Shakthi). Mars is inimical to Dragon Head, and the mind (Moon).

When Moon is locked between Mars and Dragon Head, there will be mental aberration, over flowing emotions, hallucinations etc. An astrologer can trace out these causes and offer a solution for it. In other words an exorcizing method may be suggested.

In some parts of the world, there is a method where turmeric powder is mixed with water and the Margosa twigs are dipped in the turmeric mixed water. The turmeric water is sprinkled over the Head of the affected native and the turmeric water dipped margosa twigs are lashed around the head of the native. This lashing gives rise to the sound "PHAT, PHAT, (PATHA SWAHA)" and this sound "PHAT" has tremendous psychological and scientific effect (power) to drive out the hallucinations and disturbances of the mental faculties. The native will be relieved of the problem. There are different procedures

prevalent in different nations followed by different people with regard to exorcism.

Here it is important to observe that the whole world HAS A CHEMISTRY OF ITS OWN WHICH HAS DIRECT SCIENTIFIC ASPECT. An Astrologer is nothing but a Scientist helping the people in solving many of their problems.

Transmission of heat and light from higher density plane to lower density plane, without heating the medium through which it passes is known as RADIATION. This "RADIATION" is the governing concept of the universe.

SHABDHA BRAHMA-THE SCIENCE OF SOUND

Soul has the power either to invite or disperse. In the same manner pious words can radiate affection and bad words can cause dispersion of people. IN THE WORDS OF GREAT LORD BASAVESWARA

"AYYA END ARE SWARGA
ELAVO ENDARE NARAKA".

It means-when sound is properly used with respect in plural concept-there is the Heaven and when sound is used in bad and ugly form in singular, ill mannered way, there is the Hell.

In the olden days great people who performed Yagas, Yagnas and Homas got patronage of the Royal Courts. In the present days of secular Democracy the interested general public has to donate, contribute for performing sacred rituals. Even an expert, or a pundit or a sage has to make his living and hence money has to be necessarily collected to perform such kinds of holy rituals. Misery follows greediness is the ultimate truth.

Thus the Astrological aspects and Astrologers have tremendous responsibility to study the horoscope or charts thrice or four times and give proper solutions to the native. This is the essence of Astrology.

FUNDAMENTALS OF RAO'S SYSTEM OF NADI ASTROLOGY

This book explains the various *career* aspects and their BHAVAS, the causitivities in the form of practical charts of natives.

It can be noted that the fortune of the wife containing' various characteristics are denoted through the Boy's horoscope and in the same manner, from the charts of the girl, her **would-be's** (husband's) furture, various characteristics carrer, status and many other aspects are well covered for the benefit of the readers, with various horoscopes/ charts in quite a practical manner, besides giving many example also.

Following are some of the briefings :-

SATURN	... Career aspects
MARS	... Fortune of husband
VENUS	... Fortune of wife
MERCURY	... Various aspects of educational lines.

Besides this, many other various factors, its features and characteristic are also explained accordingly.

FUNDAMENTALS OF NADI ASTROLOGY

In the Nadi system of Astrology, to Arrive at the predictional part, it is necessary to know : -

- i) The characteristics of the respective planets
- ii) Their directional aspects
- iii) The caustivity of respective planets;
- iv) The sign in which the respective planets are posited
- v) The 2nd, 5th 7th, 9th and 11th signs from such planets:

vi) Friendly and inimical aspects of the respective planets

It is traditionally common amongst most of the astrologers to consider the Ascendant (Lagna) as the most important aspect in predictional astrology.

These astrologers consider the Lagna or the ascendant as representing 'THE PERSON' of the native. But in the nadi system of astrology, in a male horoscope "JUPITER" represents the native; and in a female horoscope "VENUS" represents the native. In the coming pages it will be seen how futile and wrong it is to predict keeping the ascendant in view. For instance, if in a male horoscope, there are Saturn and Mars successively in the 5th and 7th from the ascendant, it is commonly considered that the 5th sign indicates past good deeds or POORVA PUNYA and the 7th sign indicates the wife. Based on these, predictions relating to progeny will be made. But, it is to be observed that these male planets namely Saturn and Mars cannot beget a child and only if there are female planets, the question of begetting a child arises.

While predicting about Karma or Profession, it is generally considered that the planet which is in the 10th house from the Ascendant indicates the Karma or the Profession. For instance if the Ascendant is Scorpio, Leo is the 10th sign. When the 10th sign of Leo is occupied by the sun, it is considered that the sun is the Lord of Karma. But according to causitivity of planets, Sun is the causitive planet for Soul and not for Karma. Hence the entire predictions go wrong.

Thus, it can be seen that it becomes extremely wrong to calculate from the Ascendant.

But, here a question arises, whether there is no need or necessity to take into account the Ascendant at all? . .

The object of considering the Ascendant is limited to know the exact time, minutes and seconds of the native's birth and the planetary positions at the particular time of native's birth, in signs,

degrees, minutes and seconds. In the Nadi system, signs, degrees, minutes, and seconds of planets positions are extremely important for predictions. The 12 bhavas are divided amongst the 9 planets. Whether it is Nadi system or any other system, signs, degrees, minutes and seconds showing the motions of the planets and their causitivity are very important.

Given below is the Table of **Karakatvas** of various Planets.

<i>Planet</i>	<i>Causitive of</i>
1. Sun	Father, Son, Government, Soul, Right Eye, king, Minister, Glow, Status, Eminent-person.
2. Moon	Mind, Mother, Mother-in-law Kum-kum (Red powder). Cold. Cough, Water, Cheater, Changes, Lady. Female. Left Eye, Godess Parvathi .
3. Mars	Power, Ego, Enemies, Electricity, Metal, second Brother, Fire, Heat. Hard, Teeth, Husband in a Female Horoscope, Blood.
4. Mercury	Knowledge, Education, Friends, Business, III Brother, Some times Female, Creepers.
5. Jupiter	Native (Jeevatma) in a male horoscope, Guide, or guru or preceptor; Nose.
6. Venus	Godess Lakshmi, Daughter-In-Law Wealth, House, Elder Sister, Wife, Native in female Horoscope, Luxury, Preceptor of Demons.
7. Saturn	Ishwara, Chin, Profession, Elder Brother, Slow, Lazy, Sincere worker.
8. Drm. Head	Bigness, Open Mouth, Round, Crown Nature of Demons, Muslims, Illusion (Maya, Greed, Pitamaha, Vacancy).
9. D.T. (Ketu)	Small, Hairs, Monk, Holy, Christian Breaks, Litigation, Liberation (Moksha) Vagina, Matamaha, Thread, Wire, Wireless, Lane, Narrow, Bahma .

Taking **Karakatwas** which are not relevant for a planet leads to wrong interpretations and predictions. Hence it is very important to know the specific Karakatwas of each planet. That knowledge must be properly applied in predictional part of astrology.

Chart of Directional Aspects

PLANETARY DIRECTIONS ARE UNIQUE TO NADI SYSTEM OF ASTROLOGY

	N	E	S	W	
	Pisces	Aries	Taurus	Gemini	
W	Aquarius			Cancer	N
S	Capricorn			Leo	E
	Sagittarius	Scorpio	Libra	Virgo	
	E	N	W	S	

The above chart of Directional aspects is very important in Nadi system.

In the Universal Rasi Chart, Aries is the fire house; Taurus the second and so on till pisces, which is the 12th house. The 1st 5th and 9th houses in the universal Chart represent East direction.

If one stands facing East and turns clockwise, after East we get South; after south we get West; after West we get North; and After North one comes back to East. Thus in Nadi system the 2nd, 6th and 10th Houses of the universal Rasi Chart represent South direction the 3rd and every successive 5th Houses of it namely 7th and 11th represent West Direction. The 4th, 8th and 12th Houses of the Universal Rasi Chart stand for North Direction.

TO SUM UP:

- 1-5-9 - East (from Aries)
- 2-6-9 - South (from Aries)
- 3-7-11 - West (from Aries)
- 4-8-12 - North (from Aries)

In Nadi Astrology great importance is given to houses 1-5-9, the reason being :-

Starting from Aries where it is East, to the 5th of it is again the East sign; and the 9th - that is 5th to 5th is East; and again 5th to 9th - that is the 1st house is the East sign.

This is the reason for considering 1-5-9 as East signs., in directional aspects, as taken from Aries.

Even if it is taken from Leo-Leo is East and Sagittarius is the 5th sign to the Leo which is also East, in terms of fundamentals of Astrology.

And 9th from Leo is also East and for the above reasons importance is given for the above directional aspects.

For another example if Ascendant is taken as Aquarius, Gemini is the 5th sign to Aquarius, which is also the West sign. Libra is the 9th sign to Aquarius which is also West.

The important principle of Nadi Astrology based on directional aspects is that, all the planets posited in Zodiacal signs representing the same direction are taken to be in conjunction

to one another. It is also referred to as conjunctive directions or directional aspects. Position of the planets in the 5th and 9th are in the same directional aspect of the planets in the first house.

	EAST		WEST		5
	8	7	6		

WHY 3rd and 7th Aspects are taken?

The 3rd and the 7th signs from the sign in which a planet is posited are of the opposite direction.

Ex :- Suppose Jupiter is in Gemini (in the West) the opposite sign that is the 7th sign Sagittarius is in the East. Hence the importance for the 7th aspect of the planets.

Regarding the 3rd aspect

3rd sign from the sign in which a planet is posited also represents the opposite sign. In the above chart Jupiter is in Gemini (West). 3rd sign from its position falls in Leo. is the sign of the east. Therefore importance is given to the 3rd aspect.

Regarding the 9th sign aspect

9th from Gemini falls in Aquarius. That is also the West sign. This is the importance of the 9th sign.

Regarding the 11th sign

Jupiter is in Gemini, which is the West. Aries the 11th sign from Gemini is in the opposite direction viz., the East. This brings home the importance of the 11th House.

How to take the directional aspects?

EXAMPLE CHART-I

		0	1	2	
11		SUN EAST			
10					3
9				JUP EAST	4
	D-T EAST				5
	8	7	6		

Sun in Aries (in East)

Jupiter in Leo (East)

Dragon Tail in Sagittarius
(which is also the sign of
the East).

Therefore, we are taking
the conjunction of the
planets

SUN + JUPITER +
DRAGON TAIL

Sun (father) and Government
 Jupiter (Native's life)
 Dragon Tail (Planet of liberation)
SUN+JUPITER+DRAGON TAIL.

The above chart indicates that the native's father will have transcendental knowledge and

SUN + JUPITER

father was a respectable person

First, we are taking Sun for father. For Sun there is conjunction of Jupiter+ Dragon Tail.

Sun meets Jupiter and Dragon Tail in successive east Directions. That explains the spiritual nature of the native's father.

Now, let us take Jupiter, because he is the life of the native. First, Jupiter meets Dragon Tail. Next he meets Sun. That is Dragon Tail is 5th from Jupiter. Sun is in 9th to Jupiter.

Therefore Jupiter + Dragon Tail =

Native is having philosophical inclination and also status in governmental affairs. (Dragon Tail) stands for "Dhwaja Keerti: (Prestige of the Flag) and Sun for Government)

For the father **SUN+JUPITER+DRAGON TAIL**

For the native **JUPITER+DRAGON TAIL+SUN.**

How to interpret when more than one Planet is posited in the same sign?

In few cases 2-3 planets are posited in a particular sign. In such case we have to consider the degrees of planets and then further assessments are to be made.

EXAMPLE CHART-III

		0	1	2	
11		JUP SUN EAST			
10					3
9				D-T EAST	4
					5
	8	7	6		

(JUPITER in 5 degrees)

SUN in 10 degrees)

TAIL 15 Deg. in East.

In this chart Jupiter is in 5 Degrees. Sun is in 10 Degrees (East). Dragon Tail is also in 15 Degrees in the East sign of Leo. Now as per degrees or according to

NAKSHATRA PMDA WE HAVE
JUPITER + SUN + DRAGON TAIL

Thus when Jupiter is in the starting degree, it is considered as

JUPITER+SUN+TAIL
JEEVA+ATMA+MOKSHA
= JEEVATMA MOKSHA

On the other side, native enjoys social status, has inclination towards charites. Besides he becomes a notable person.

EXAMPLE CHART - IV

MER-10 Deg.

		0	1	2	
11		VEN MER EAST			
10					3
9					4
	SAT EAST				5
	8	7	6		

MOON-15 Deg.

In this chart, we are having Venus in Aries (East). Mercury is next to Venus according to degrees and further Moon is in 15 deg.

Hence Venus in 5 Degrees
 Mercury in 10 Degrees
 Moon is in 15 Degrees

In the same East sign of Sagittarius.

Saturn is in 3 Degrees.

Therefore we have to consider

SATURN + VENUS + MERCURY + MOON

Saturn indicates the planet of work or *career* or profession.
 According to degrees.

SATURN + VENUS + MERCURY + MOON.

In the 2nd there is Venus, Mercury in the 3rd and Moon in the 4th.

WORK+ WEALTH + INTELLECT+ART.

Hence native will have extraordinary intellect, having knowledge in artistic lines, besides being wealthy.

Or

VENUS+SATURN+MERCURY+MOON

VENUS (WEALTH).

SATURN (WORK).

MERCURY (BUSINESS)

MOON (TRANSACTION)

Hence native does money transactional business for career.

Wife of the native

While predicting for the native's wife in the above Chart-IV Venus is the life of the native and 2nd to Venus there is Mercury according to degrees.

Hence wife is intellectual type and next there is Moon. Hence, she is artistic, knowledgeable, intelligent, soft and idealistic.

Her soft character is caused by **MERCURY+MOON**.

Wife will be quite fair looking, besides having flair in artistic lines.

In this way the predictive part must be arrived at, considering the degrees of the planets.

Suppose there are 6 to 7 planets in a sign, even then the consideration of degrees, minutes and seconds are very important.

CONSIDERATION OF DEGREES AND MINUTES

For ex :- Venus is in 5 deg. 10 minutes and 6 seconds in a particular sign. In the same sign Saturn in 5 deg. **minues** and 7 seconds and Sun is in 5 deg. 10 **min.** and 8 seconds. Now we have to consider.

VENUS+SATURN+SUN

according to seconds calculations. Saturn is in the between Venus and Sun.

Therefore though the sign, degrees and minutes are the same, there are variations in seconds and because of this variation Venus will not suffer majorliarm from the Sun. These points must be taken into consideration before giving the predictions to the natives.

PLANETS & THEIR ZODIAC SIGNS

		0	1	2	
11	JUP	MARS	VEN	MER	
10	SAT			MOON	3
9	SAT			SUN	4
	JUP	MARS	VEN	MER	5
	8	7	6		

Aries and Scorpio are the houses of Mars.

Taurus and Libra are the houses of Venus

Gemini and Virgo are the houses of Mercury.

Cancer for Moon.

Sun for Leo,

Sagittarius and Pisces for Jupiter.

Capricorn and Aquarius for Saturn.

They are the owners of 12-Zodiacal signs accordingly.

In the above Zodiacal chart, also called the universal Rasi chart, Sun occupying the Leo sign represents the Father and Moon occupying the Cancer sign represents the mother. In the anti-clockwise direction the mother gives the child (Mercury-anti-clockwise direction the mother gives the child (Mercury-Gemini) all comfort (Venus-Taurus), power (Mars-Aries), knowledge (Jupiter-Pisces), so that he is made fit for career or profession (Saturn-Aquarius).

Similarly father-the Sun posited in Leo does it in clockwise direction. For the child (Mercury in Virgo), the father gives all comforts (Venus in Libra), energy and power (Mars in Scorpio), knowledge and wisdom (Jupiter in Sagittarius), so that the child is prepared for Karma. (Saturn in Capricorn.)

The other delienation of the universal Rasi chart is that Sun in Leo is the king and Moon in Cancer is the Queen. Mars in Aries and Scorpio gives energy to the king and queen. Venus in Taurus and Libra gives lust to the King and the Queen. As a result children -Mercury in Gemini and Virgo are born. To ensure that the King & Queen in Capricorn and Acquarius and delivers their Karma. In the periods of trouble faced by the King and the Queen, Jupiter sitting in Sagittarius and Pisces gives protection and wisdom to the King and Queen-Sun and Moon.

Thus is explained the position of various planets, in various Zodiacal signs, in the Universal Rasi chart.

INTERCHANGE OF PLANETS (PARIVARTHANA)

Interchange or parivarthana of planets can be explained easily with an example.

For instance A' will be in the house of B' and B in the house of *A'. Similarly 'C' will be in the house of D' and D' will be in the house of 'C. This is interchange of houses.

For ex : - Sun in Pisces and Jupiter in Leo - such posits are called interchange or parivarthana.

CAUSITIVE EFFECTS OF INTERCHANGE.

	0	1	2	
11	MARS SAT D-T	JUP		
10				3
9				4
				5
	8	7	6	

Let us study the Causitive effects of Interchange through an example. In the above chart, Saturn which is the causative planet for Career (work is in conjunction with Mars and Dragon Tail in Pisces. Mars and Dragon Tail are inimical

to Saturn. When they are in Pisces, native suffers disappointments and prejudicial aspects from other sources with regard to native's career. In the same horoscope/chart, if Jupiter is in Aries which is the sign of Mars, then there is an interchange between Mars goes to his own house Aries, and Jupiter joins with Saturn and Dragon-Tail in Pisces. Pisces is the own house of Jupiter. Therefore Saturn will have the support Jupiter and Dragon-Tail is curtailed so that it can not cause major harm to the native's career.

Another Ex:-

VENUS + MOON + DRAGON HEAD - Indicates that the native's wife is having hallucinations (disturbances in the mental faculties).

But in the same chart if Sun is in the Cancer then there will be interchange between Sun and Moon-then it becomes

**VENUS + SUN
+ DRAGON HEAD**

	0	1	2	
11				
10				3
9				4
				5
	8	7	6	

Thus the native's hallucinations subside for the better. Interchanges can be the cause of both good effects and bad effects.

	0	1	2	
11		SATURN		
10	D.H.			3
9	MARS JUPITER			4
				5
	8	7	6	

Mars is in Capricorn with Jupiter, Saturn is in Aries, with Moon and Dragon Tail. Saturn is the causative planet for work (profession /career). Moon and Dragon Tail are inimical to Saturn, with the result the native's work suffers

and accusations maximum work-minimum benefits and other sufferings should result. But in this case, there will be an interchange between Saturn and Mars. Thus Saturn comes to his own house Capricorn Saturn gets a guide in the form of planet Jupiter. In Capricorn Saturn gets a guide in the form of planet Jupiter. Native's sufferings recede. Thus the above interchange

indicates both beneficial and non-beneficial aspects, which must be considered carefully.

RETRO MOTION

When planets move in clock-wise direction, it is called direct motion of the planets. On the other hand when planets move in anticlockwise direction, it is called Retro motion of the planets. This principle does not apply to Dragon Head and Dragon Tail, which always move in anti-clockwise direction.

Method of taking planetary positions of planets from the native's horoscope.

		0	1	2	
11	SUN VENUS	D.HEAD			
10	SAT			JUP ASC	3
9				MOON	4
			MER D. TAIL	MARS	5
	8	7	6		

We have to take the planets according to directional aspects. Ex : -Saturn is in the West, 29.35 Degree. Dragon Tail and Mercury are also in the west. Dragon Tail is in 22 Degree and Mercury in 29 Degree. Therefore as per degrees, DRAGON

TAIL + MERCURY+SATURN has to be considered. The interpretation is that the native's career is of intellectual and imaginative type.

Jupiter in North, Sun and Venus also in North-Jupiter in 10 Degree, Sun in 20 Degree, Venus in 23 Deg. These 3 planets are in North, but variation of degrees is considered whether Jupiter comes 1st, 2nd Saturn and Venus in third.

Therefore Jupiter is the native, Sun is native's father and hence JUPITER+SUN - indicates native's father was a respectable person.

According to degrees Venus is after the Sun degree. The clockwise planet Venus, after passing 7 degrees enters the East sign of Sagittarius. But Aries is also in East, where there is Dragon Head. Leo is also in the East, where there is Moon. Here (in Aries) Venus meets first the moon who is in 10 Degrees and later meets Dragon Head.

Or in other words Venus meets Moon 1st, who is in 10 Degree in the East sign and later meets Dragon Head who is also in the East but in 22 Degrees. Therefore Venus has to overcome much difficulties, indicating late marriage. Or even after marriage during the 1st part, the native undergoes crisis.

MARSONIC EFFECTS (ANGARAKA DOSHA) (LATE MARRIAGE)

In the last chart Mars is in Virgo which is South and behind East where there is Moon. 2nd to Mars is the west, where there is Mercury and Dragon Tail. Therefore Mars is having inimical planets on adjoining signs. Therefore Mars cannot go and see the wife Venus, who is in Scorpio. Hence the native's marriage cannot take place during the first part of his life.

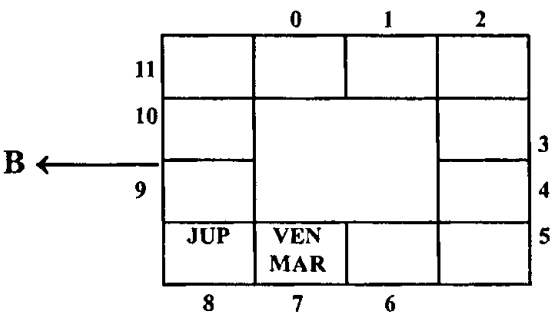

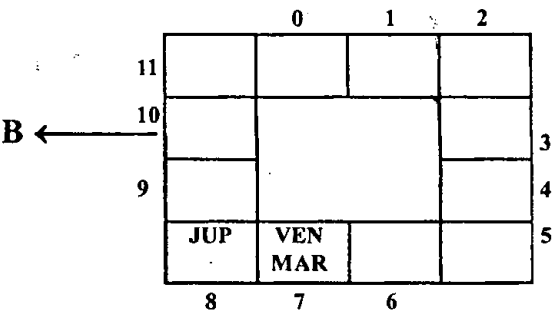

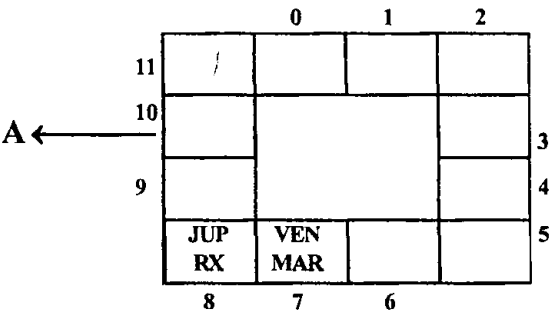

Regarding Career

In the last chart Saturn is in Aquarius and aspected by Moon from the 7th. In signs adjoining Saturn, there are no planets. The vacancy of the Houses adjoining the sign where Saturn is posited, coupled with the fact that Saturn is aspected by moon, indicate work or carrer in a place far away from the birth place of the Native. It can also indicate that the career of the native involves travels to distant places.

These are the methods of predication adopted in the Nadi system of Astrology.

STRENGTH OF RETRO MOTION

When a planet is retro, such a planet will aspect the rear sign by $t/2$ strength.

EFFECT OF TRANSITORY PLANETS

In the above chart Venus and Mars are in Scorpio in the Natal chart of the native. In the above chart of the native. In the above chart transit Jupiter is taken for consideration.

In chart A-Venus and Mars are in North. Transit Jupiter is aspecting the North sign of Scorpio because he is Retro. At that time, the Betrothal (Lagnapatrika) ceremony got fixed up.

But in chart -B, Jupiter became direct. Therefore the Jupiter aspect was annuled and hence the marriage was postponed.

Again in Chart-C, Jupiter came to the South and is aspecting North (7th and 11th) from the West. Then the marriage took place. This is a standard example, besides being an incident that occurred in 1997. Hence Retro motion is to be considered with its due importance.

FRIENDLY & INIMICAL ASPECTS OF PLANETS

Planets by creation are celestial. They are not inimical by nature. But to understand and interpret the effect they cause on a native, by their constant motion in the cosmos. Astrological principles delineate friendly, inimical and neutral relationships amongst the planets.

SUN

Sun is the father of Saturn. The son Saturn is inimical to the father, the Sun. Similarly Venus and Dragon Head are inimical to Sun. While Saturn indicates work; Venus indicates luxury and wealth: and Dragon Head indicates Kalapurusha.

Saturn is Tamoguna, whereas the Sun stands for Rajoguna. Therefore though sun and Saturn are father and son, they are inimical to each other because of their inherent qualities, Saturn's mother is Chayadevi, chay meaning shadow. Sun is glow, speed, light and king. Saturn's Slow, dark, Lazy and a sincere servant. Because of such opposing characters sun and Saturn are astrologically considered to be inimical. Venus stands for wealth, luxury and female. Sun-the Atmakaraka or cause of Soul is not interested in the above causitive factors of Venus. So Venus is astrologically considered to be inimical to Sun.

Dragon Head is demonic. It temporarily swallows the Sun causing Solar Eclipse. So astrologically Dragon Head is considered to be an enemy of Sun. Thus in Astrology it is considered that Sun is inimical to above mentioned 3 planets namely Venus. Saturn and Dragon Head.

Friendly planets of Sun are :-

Mercury (intellect),
Dragon Tail (Liberation),
Jupiter (Guide) and
Mars (power).

MOON

Moon is the causitive planet of mind, water, mother-in-law. (Venus stands for daughter-in-law). Dragon Head representing clouds is inimical to Moon, because clouds can cover up the Moon and make him dull. Astrologically Dragon Head can cover up the Natal Moon which is the causitive planet of mind and make the Native's mind **dull** and eclipsed.

Also Dragon Head is Mayakaraka causing illusions and is of Demonic, temperament.

Venus is the female power substance and when water compound is excessive, this female power loses its strength. Again Venus is the causitive planet of daughter-in-law; whereas Moon is the causitive planet of Mother-in-Law. So Daughter-in-law-Venus is inimical to Mother-in-law-Moon.

Venus is inimical to Moon because Moon is expenditure, while Venus is wealth and hence are not concordant in their aspects.

MARS

Mars is causative of ego. Saturn is work and Dragon Head is Tamoguna Mercury is intellect and hence Mars is not concordant with these three planets. Saturn represents worker. An egoistic worker attracts the wrath of **all**-his superiors, his colleagues, and his subordinates. The egoistic employee quits or loses job on account of the wrath he ignites in his superiors. So astrologically saturn and Mars are considered enemies.

Dragon Head is Tamoguna or laziness, where as Mars stands for energy and speed. So Mars and Dragon Head are enemies.

Mercury is intellect. Normally physical power and intellect do not go together. Those who are physically strong, first hit and then think. Thus Mars and Mercury are enemies.

Friendly to Mars is Venus which stands for female, luxury and wealth. Mars indicates marriage and Venus, the Wife. So they are friends. Jupiter is guide or Guru or preceptor. Sun is the King (Rajoguna). So also Mars has Rajoguna. It is also said that Mars represents the commander-in-Chief of the Army; Sun-The king and Guru-Raja Purohit. Thus Mars is the friend of Sun and Jupiter.

Dragon Tail indicates Sanyasa or renunciation. After reaching the pinnacle of power, one ultimately renounces the world. The ancient Rajas' and Maharajas used to take to Vanaprasthashrama, after handing over the Kingdom to their successors, after reaching a certain age. In modern days fall from the pinnacle of power, makes one to renounce politics.

MERCURY

Mercury is the planet of intellect, who likes Atmodharaka Ravi (The Sun). Intellect also likes work i.e., Saturn. Mercury is affectionate with Dragon Head.

Mercury enjoys good name through Dragon Head. According to mythology, when Demon was created, Lord Maha Vishnu (The Saviour-Jagat Rakshaka) came forward and destroyed the demon. Mercury is the embodying concept of Lord Mahavishnu. Dragon Head stands for "Dhwaja Keerthi" (prestige through flag). Therefore Mercury and Dragon Head are friends and their combination either in conjunction or by appropriate aspect brings name and fame to the Native. Venus is also friendly with Mercury, because Mercury is female sometimes and Venus is also female. Mercury takes the Gender of the planet it is posited with in a sign.

Inimical Planets:

Intellect planet Mercury does not like egoistic Mars and liberation Dragon Tail, which are discordant to their characteristics. Ego and wisdom do not go together. This explains why Mercury and Mars are enemies. Similarly Mercury is young and it has no inclination towards salvation and is therefore inimical to Dragon Tail.

JUPITER

Strictly speaking Jupiter is not inimical to any other planet. The relationship between Jupiter (preceptor) and Mercury (child or Student) are like that of a master and student. A master although may chide the student at times, still he is not inimical to the student. For instance, if in a class-room an intelligent student poses an inconvenient question or a question which the teacher is incapable of answering, the teacher may chide the student, just to silence the student. But in the heart of his heart, the teacher will be appreciative of such student. A combination of Jupiter and Mercury gives Extraordinary intelligence to the native because

Guru Budhi Visheshita has Jupiter cannot like Moon because of the wavering and of Moon. Jupiter likes Saturn because work is guided by Jupiter. Jupiter must have power (authority) and hence is friendly with Mars. As Sun is the King, eminent person and Soul, Jupiter is friendly with Sun. For Jupiter, Moon and Dragon Head are sometimes neutral.

VENUS

Some of the relationships are explained above. Venus likes work (Saturn), Mars (the power), and intellect planet of Mercury.

Venus also likes Dragon Head. Dragon Tail is sometimes neutral.

SATURN

Except Sun/Moon/Mars and Dragon Head all other planets are friendly with Saturn.

DRAGON HEAD

Except Sun, Moon and Mars, all other planets are friendly.

DRAGON TAIL

Mercury and Saturn are inimical.

Sun and Moon are sometimes neutral. All other planets are friendly .

NEUTRAL ASPECTS

As mentioned above, some neutral aspects (relationships) are there and they are delineated below : -

Moon with Jupiter brings change of place, accusations.

Moon + Saturn : - While Saturn indicates work Moon indicates change. Place of work of the native is subject to change resulting in profitable or non-profitable aspects.

Moon + Mercury :- Mercury is intellect and Moon is Mind indicating waverness and intellect is spread in various forms/fields.

Sun + Dragon tail :- Dragon Tail is neutral as mentioned above.. Sun indicating government and status; and Tail indicating flag. This combination indicates Social Status and/or political status. Sometimes may become the cause of obstruction for the prosperity of the native, depending upon the other planetary aspects and conjunctions.

The above aspects are explained in detail in "The Core of Nadi Astrology" and "Advanced Course of Astro Palmistry".

PROFESSION FROM SATURN (SANI):

Many people enquire about the profession. If one wants and proceed further.

When one would get the Job?

In a native's horoscope, if the aspect of transit Jupiter falls on natal Saturn or in transit when Saturn transits on natal Jupiter, the native is getting the job, Leaving the infancy stage / years of the native, benefic results would be there for the coming years of the native under the above periods, It is essential & beneficial to know the directions of the signs. (Mesha, **Simha** & Dhanus will be in East direction and planets posited in these 3 signs will be considered as conjoined in one sign / one direction). As per Parashara System, any trines i.e. 1, 5, 9 signs will be in one direction.

As an example, if Saturn is posited in **East**, in another sign of East if Mars & Ketu are posited it is considered that there is Saturn + Mars + Ketu combination. Saturn will have an egoistic natured Mars & obstructive planet Ketu in combination i.e. if these 3 planets are conjoined in one sign or posited in 1, 5, 9 signs, the native will have break in service, harassment from enemies & pinpricks without fail,

In another example, if Mars is in Vrishabha, Moon is in Kanya and Ketu is in Makara it amounts that these 3 planets are combined in one sign or in one direction & also indicates break in Service.

Harassment in Profession:

In a native's horoscope when transit Saturn transits over natal Saturn or Ketu or on natal Kuja, (Mars) the vexation or

harassment starts in profession, This vexation or harassment will continue till transit Saturn crosses over the natal Mars (Kuja) or natal Ketu. Later on it will be auspicious.

When the harassment starts in profession;

When transit Saturn transits over natal Ketu there would be trouble from enemies. The remedy for this is reciting Chandra - Ketu Ashtotthara or Kuja - Ketu Ashtotthara or Durga Kavacha to ward off the blemishes. Sometimes by flattering or commending the higher authorities and listening to their words the trouble can be warded off.

LEAVING THE JOB DUE TO UNBEARABLE HARASSMENT:

When transit Saturn transits over natal Mars + Ketu and if Jupiter is not posited in 5th or 9th to. this Mars + Ketu the native has to leave the-Job compulsorily.

Change of Place in profession:

When transit Saturn transits over natal Moon the native will have change of place in profession. Sometimes when transit Saturn transits over the 3rd, 7th house to Moon, the change of place in profession takes place.

ELEVATION / PROGRESS IN PROFESSION;

When transit Saturn transits over natal Jupiter the native will have elevation in his profession. At the same time if Sun's aspect is also there he will get the special authority in his elevation. If Moon is also posited along with Jupiter, in addition to elevation with authority, he will have change of place or transfer. Even after getting transferred after promotion, he will have harassment from higher officers there. If Mars is posited in 2nd to Jupiter the enemies would be there at new place.

Leaving the present Job and seeking another job:

If natal Moon + ketu are in the 3rd house to natal Saturn there will be frequent job change. As an example, take the birth on DOB 28-6-1977, In this horoscope, Saturn is posited in Kataka, Moon is posited in Vrischika and Ketu is posited in Meena. All these 3 planets are in one direction North, otherwise to say they are in 1, 5, 9 trines amounting to Saturn + Moon + Ketu combination in one sign. With this the native will have frequent break in the job and he will not complete any thing. In the palm of this native the Fate Line will be a broken one.

Job along with main job;

If Natal Saturn has Venus + Mercury in the 2nd or in 5th to him the native perform a secondary job along with main job.

EXAMPLE CHARTS

Female Horoscope 6766:

There is a combination of Mercury + Mars in the chart. Due to this the native will have medium education. Moon is in 5 and ketu is in 9 to this combination and it amounts to that Mercury + Mars + Moon + Ketu are combined in one sign and direction - South. In this combination, Mercury and Mars are enemies to each other. Budha (Mercury) + Moon are planets of pleasure or sensualistic planets. Mars + Mercury have ketu in the 9 to them, with this, the native will not enjoy the person who is legally wedded or the person she had kept.

In this chart, Mars is one husband. Saturn + Venus combination with Ravi is debilitated. Saturn is another husband. so, she has a combination of two husbands.

In transit when ketu transits over virgo sign (kanya rasi) and since the combination of Mars + Mercury + Moon + Ketu in the South direction she will have wavering of mind, controversies and disrepute. With this she has to leave the place. At the same time when transit Jupiter transits over Meena (pisces), a North direction, her problems will be remedied and she will have an auspicious time.

Female Horoscope 6703 :

In this chart, Saturn the significator of Profession is posited in Makara (South). Ketu is posited in Dhanus in East behind

Saturn, 2nd house to Saturn in Mithuna a West Sign, Rahu is posited. With this Saturn does not have any benefic planets on either side of him. In addition to his, Moon is posited in the same direction of Saturn i.e. in South in in Vrishabha. so, she does not have any assured income. Hardships are plenty without any respite.

The Planets Mars + Saturn + Moon is in one direction amounting to be in one sign. Since the significator of husband Mars is combined with Saturn + Moon, her husband will be wandering. Since Saturn is posited in his own house and Kuja is also posited there itself (1,5,9) both husband and also son do not have any happiness or at peace.

Significator of mother Moon though exalted in Vrishabha is actually hemmed in between Rahu and Ketu, so she will have least happiness.

Venus is the Yoga planet for this native. Venus is posited in Karkataka along with Ravi, Position of Ravi + Sukra in Karkataka and position of Budha in 2 to this combination is considered as Inauspicious or Evil combination. She will not have happiness and does not listen to her husband. Since Moon is posited in 9 to Mars, it is considered that the blemish of Mars exists.

Male Horoscope 6704 :

Often break in service

As said earlier, if the combination of Sani + Chandra + Ketu exists in a chart and also have an aspect of Kuja from the 7th the native will experience often break in service/ profession. Saturn is the Karaka profession and Ketu is Karaka for break.

Sometimes, there would be litigations but still it will be beneficial.

It should be understood that as the planets Kuja + Sukra + Guru are posited behind the father Ravi in south, it amounts that the wealth is earned by father. These planets are posited in 2 to Moon the mother. Sani is posited in Mesha (East). The 2nd house to East is **south**. with this reason the native will inherit the parents' property.

JYOTHISHA

What is Jyothisha?

"Jyothi" means the **Soul Power** in every body is itself called Jyothi. The elucidation of this Jyothi is known as Jyothisha.

In Jyotisha, the predictions (Phalabhaga) are written are written as per individual knowledge. In jyotisha, there are 12 signs & 27 constellations. There are 12 ascendants from sun rise to Sun rise on the next day.

'Ascendant' means the sign in which the exact degree falls of birth from which the predictions are made.

Ascendant means, is it to be counted from the sign of birth or is to be counted from the planets posited at the time of birth in hours & minutes for the prediction to be taken as ascendant is the question. **These two methods need research.**

Some say Ascendant, 7 house/bhava etc. As an example, for Aquarius (Kumbha) ascendant, the 7 house is Leo (Simha). Leo is the Sun's house. Ravi (Sun) is the Atma Karaka planet. It has no other Significance/ karakatwa. Our belief is or general presumption is that 7 house means husband's / wife's house. Sun (ravi) is not any spouse to any one. It looks ridiculous to say that 7 lord Ravi (Sun) gives a spouse for marriage. It also looks ridiculous to say that 7 container contains sugar in everybody's house or it would be catastrophe to believe that 7 tin contains sugar.

The native born in Capricorn (Makara) ascendant, the 7 house becomes Karkataka (Cancer). Karkaataka (Cancer) is Matru

Stana or house of Mother. That means it is not possible to give her own daughter in marriage to the native of this **ascendant**. this becomes a **debacle**. without thinking about these wrong prediction are made.

nd

A person born in Sagittarius Ascendant (Dhanus), the 3 sign Aquarius (Kumbha) cannot become a mother's house (Matru stana). Aquarius is the house of Lord Eshwara and also the house of gain. Like this different calculations are made to give prediction. this is not convincing.

As an another example, if the owner of the house stands in front of his bodyguard's house one cannot assume that he is the servant or a security guard of that house. That means, any planet be in any house or sign, fully analyse the significance of that sign along with that planet and give prediction. If predicted without knowing the lordship of that planet the prediction becomes false.

In astrology, there are 9 planets and 12 signs. The sign Aries (Mesha) is the birth sign of Kaalapurusha or Time Personified. the 2 house Vrishabha (Taurus) is the house of Venus (Sukra). Mesha is male sign & Vrishabha is female sign. The combination of these two signs is the sign of Gemini (Mithuna). Next is the Moon (Chandra) sign, the Karaka for mother. Chandra is a female planet and sometimes becomes male planet according to the circumstances. Simha (Leo) is a sign of royal planet sun (Ravi). The next sign is Virgo (Kanya) which indicates the union of male and female. thula (Libra) is the sign of business activities. Next is Vrishika (Scorpio) sign where lord Subrahmanya has taken birth. Sagittarius (Dhanus) is the

sign of Guru (Jupiter -the **preceptor**). the Capricorn (Makara) sign indicates the Karma / deed (fruit of one's action). The Aquarius (Kumbha) sign indicate the gains. Pisces sign indicates the destruction. The destruction means whatever the native earned by good (Virtue/ earned by virtuous life) or bad deeds (Sin/wicked act) will be spent here. When counted from Aries (Mesha), the 12 house becomes the Pisces (Meena), the house of loss / expenditure.

A native born in Aries (Mesha), will see his family as a gain Taurus (Vrishabha). As said earlier, Mithuna (Gemini) will show the sexual **union**. then comes the significator of Mother Chandra (Moon) & the royal planet's sign Leo (Simha). Lord of Simha is Ravi (Sun) who gives position. Saturn (Sani) is the lord of Profession / Karma (Deed). Lord of Kumbha (Aquarius) is also Saturn (Sani). But the lord of Capricorn (Makara) tells the Profession (Karma). That means 10th house from Mesha (Aries) will be having the lordship of Saturn (Sani) who is the lord of Makara (Capricorn) to perform the deeds (**Karma**). when the deeds (Karma) are performed by the influenced mind, royal planet ravi (Sun) will give gains to the 11th lord Sani (Saturn). That means everybody should get the right mind to do things. Then only the deed will be in order. The way is created to perform the deed through the right mind. Saturn (Sani) will perform the deed. The royal planet Ravi (Sun) will give gains to the 11 lord Saturn (Sani), after seeing the **performance**. with this it will be known that 10 house from ascendant (lagna) is house of profession and 11 house from ascendant (Lagna) is the house of gain. Except Saturn, no other planet will be the significator for the **profession**. to do the work,

Chandra (Mind) is essential and Ravi (Sun) the significator of Soul has to give the results. So, 10 house is the house of profession and 11 house is the house of gain. The gains of the native's good or bad deeds are to be spent as expenditure.

House of loss (expenditure) means is the sign of Meena (Pisces) of kalapurusha (Time personified). This sign has been compared to the abode of gods. Native, after spending the accumulated results of good or bad deeds, he takes birth again. With this, the birth of Kalapurusha (Time Personified) means the Sign of Aries (Mesha). From here all activities are starting. After birth, he should get a gain with a female; the 2nd house to Mesha (Aries) becomes the house of **Kutumba/family**.

In this world, only Saturn (Sani) is considered for profession and is known as lord of **profession**. for whatever good or bad deeds done by the native, the gain/loss is accumulated at the houses 10 and 11 during the time of king **Vikramaaditya**, Saturn (Sani) has solemnly affirmed that he will not harm any one. Whatever the god promised will not be broken. It is not good to vilify saying 8th Saturn, 9 Saturn or Saturn in **ascendant/ birth** Saturn (Sani) etc. But the question arises who is undergoing the troubles? **For Example**, if the native has lost the profession it is due to **arrogancy/egoism**, **disinterestedness**, **fickleness/unsteady mind**.

Saturn (Sani) will act as postman who carries the letters / matters. Happiness and hardship or any adverse actions in life would be according to the native's deeds. Mind, Egoism and disinterestedness, all these three are always gives troubles in the profession. **Deed/karma** is a word which can be good or bad.

There is no other meaning for this word. Saturn (Sani), the lord of profession / Karma is embodiment of Lord Eshwara. He doesnot have any shape or any specific character and he is known as almighty. As such he does not think of harming any one.

If Saturn is placed in 5 , 8 and in 1st house he will **caled** birth Sani (Saturn), 8th house Sani (Saturn) etc. But if Saturn (Sani) combines with Chandra (Moon), there will be changes. Chandra (Moon) is known for motion movement. So, in a Chart, if Saturn (Sani) transits over the natal Moon (Chandra), the native will have a, change of place. This combination also creates the **accusations**. saturn (Sani) - **Karma**/ deed, Chandra (Moon) - Movement, when this situation occurs Saturn's fault will not be there.

If Saturn (Sani) is having conjunction with egoistic Mars (Kuja), the Lord of Profession / Karma, Karma will also be having egoistic **nature**. if egoism comes to the profession or if profession attains the egoism, the profession will not be complete. ***This is experimental.***

The significator of austerity - ketu does not cooperate with the significator or profession, the Saturn (Sani). That means to the profession, to a person doing a job, if an ascetic comes & tells to do the job, the worker will not agree and refuses to do. The reason being the when Saturn has combination with Ketu, Ketu will not allow to do the job i.e. there will be a break **in** job.

It is told that ketu means, disputes, breaks etc. When the transit Saturn transits over natal Ketu the native will have dis-

satisfaction in his job and harassment from higher authorities in his job. When Ketu conjoins there would be litigations also.

Water does not have any colour and does not have any shape. when colour is added it changes according to the colour mixed. Like wise, when Saturn conjoins with different planets, Saturn conjoins with different planets, Saturn will have influence as per the planets conjoined with. With this reason, Saturn won't harm anyone. **This is a significant statement.**

At the time of birth, if Saturn is posited in Aries (Mesha) and at the same time Mars (Kuja) is also posited there itself, & if Moon (chandra) - Ketu and posited in 2nd to Mesha, the native cannot perform any definite profession. All the above 3 planets combination bring lot of hardship to the native.

The 7 house from Mesha is a female sign as per Kalapursha or Time Personification or natural zodiac. Vrishabha is also a female sign. 7 sign from this is a male sign, the house of Mars, the significator of Husband. 10 house from Mesha is a Lord of profession's house, and 10 is the house of gains. Saturn (Sani) alone is for the profession / Karma and gains from the profession is also obtained / enjoyed by Saturn / Sani. The loss or expenditure is as per the evil deeds & earned by virtuous life.

st

Sukra (Venus) is the 1 wife and Budha (Mercury) is the 2 wife. so, with this 1 st, 2 , 3rd wife's combination would be known according to karma (deeds) of the native.

Whatever the sign be, only Venus (sukra) is the wife and Mars (Kuja) is the husband. It is essential to know the Characteristics, cruel nature, exaltation and debilitation, conjunction and combinations of these two planets.

When one looks at a female chart, if Mars (Kuja) is posited in his exaltation sign Makara (Capricorn) and Rahu is also posited there she gets husband of follishness. In case this Mars (Kuja) had the Moon (Chandra) along with him, the husband would be traveling in nature. If the Mars (Kuja) had Sun (Ravi) with him, she gets an arrogant, short tempered and egoistic husband. **In the male chart, if Mars (Kuja) is posited along with sukra (Venus), the native would get a stubborn adamant wife.**

If Venus (Sukra) conjoined with Mars (Kuja) and Rahu, the wife would be authoritative and the husband has to listen to her. Otherwise, hostility would be created. If the significator of wife, Venus (Sukra) is conjoined with Jupiter (Guru) + Mercury (Budha), the wife would be highly educated and also be a famous personality. If there is a combination of Sukra (Venus) with Jupiter (Guru) and Saturn (Sani), she will have a profession equal to respectable teaching.

If Sukra* (Venus) is conjoined with or has a combination with Mercury (budha) and Moon (Chandra), she will be good eloquacious, proficient, and will have easy grasping power. If Sukra (Venus) is having Moon (Chandra) - Ketu combination, she will be an expert in fine arts but will have illness - Asthama.

Ascendant (Lagna)

There are 12 ascendants. There would be gain, Loss & enemy combinations for all these 12 ascendants. It is not possible to decide /ascertain which are the lasting / enduring, profitable / advantageous and most superior / excellent **ascendant**. For swearing in ceremony of Lord Sri Rama, all sages including

Vasishta, Parashara have decided that it is an auspicious ascendant. but, to the set time, swearing ceremony did not take place. Lord Sri Rama started journey towards forest. If one questions this, they say, the sages have decided that way. It is a coincidence.

Once, Lord Indira got all the sages and saints assembled in Devaloka (heaven) along with Jupiter (Guru) - the Bruhaspathacharya. As per their desire a beautiful garden / forest was to be created on Earth that too in a sacred place called "Aryavartha" and the same was created. After few years, during Mahabharatha War, the Lord of Fire asked Lord Krishna for food. so the beautiful Garden / Forest was given in the form of charity to the Fire God. The whole forest known as "kandava Forest" was burnt down. with this, Lord Indira got angry and chided Bruhaspathacharya inappropriately spoke for not selecting the proper ascendant. Then all the Sages and Saints assembled and discussed about the proper ascendant is and could not come to the conclusion. Finally the decision is that **"The best auspicious & proper ascendant is the time when one recalls the name of the god or Paramaatma"**. Ever now, prior to, if any auspicious functions are to be performed, the first thing is said, this ascendant (thadeva lagnam), strength of stars (taraabalam), strength of Moon (Chandrabalam) . . . and remembering the name of God Pundareekaaksha and the function is started. so, it is said that the time when one remembers the name of the God is the best ascendant. To say that so & so ascendant is auspicious is nothing but a blind belief or superstitious.

**TRANSIT OF PLANETS ON THE BIRTH CHART -
R.G. RAO**

The Book underreview is in erudite compilation of ancient NADI Wisdom. As such, it makes for a curiously interesting reading. The method adopted to make the predictions is by juxtaposing the Transit chart (at time of query) with the native's Birth Chart. All the case studies are based upon inscrutable and and mysterious interpretations defying logical analysis. These 'Lessons of Nadi' as the author puts it, are presented in the form of a dialogue. The ordinary will find it difficult to comprehend and apply the same in practice, but nevertheless, it does not fail to impress.
